Dear Landowners/Water Users,

I'm pleased to announce DPWD is looking to add to our small staff. The District is looking to hire a Special Program Technician that will assist District staff with the implementation of some of the many programs and regulatory requirements the District and District customers face. Some of the key responsibilities may include:

- Assist with management of the Westside San Joaquin River Watershed Coalition drain & storm water sampling program in the northern region.
- Support the District's participation in the Valley Water Collaborative as part of the implementation of the Salinity and Nitrate Control Program.
- Maintain and update District SGMA database and maps.
- Prepare customer correspondence regarding educational opportunities through existing state and county programs.
- Attend meetings with the various regulatory agencies that impact District activities.
- Facilitate customer compliance with all reporting requirements.

A full job description is attached. Applications are available at the District Office or online at [DPWD Special Programs Technician](#).

Please consider forwarding to anyone you think could be a good fit.

Thanks,

Adam Scheuber, P.E.
